Subject index*

A

- Abscess, large, of heart and spleen complicating bacterial (enterococcal) endocarditis (Schoenfeld, et al.), 818
- Acceleration-force, I-J, systolic, values of normal males from Nickerson type of ultralow-frequency ballistocardiographic system (Hollis), 525
- Action, cardiac, potential, ion movements underlying (Weidmann), 298
- Activity, electrical, of heart, influence of high altitudes on (Peñaloza, et al.), 101
- Africa, notes on cardiovascular disease in (White), 133 (Annot.)
- Air embolism (James), 423 (Annot.)
- Alcoholic cardiomyopathy (Evans), 556
- Aldosterone antagonists, clinical use of, 141 (B. Rev.)
- Algeria, considerations on evolution of heart diseases in (Sarrouy, et al.), 145
- Altitudes, high, influence of, on electrical activity of heart (Peñaloza, et al.), 101
- Amotriphene, cardiovascular and antiarrhythmic activity of (Brown, et al.), 531
- Amplitudes, ECG, and spatial vectors, relationship of elevated blood pressure to, in otherwise "healthy" subjects (Rautaharju and Blackburn), 156
- Anabolic steroids, earlier dialysis and, in acute renal failure (Blagg and Parsons), 287
- Aneurysm, aortic sinus, ruptured. Case report, with review of clinical features (Evans, et al.), 408
- Angina pectoris. Effect of exertion and of nitrites on precordial movements (Skinner, et al.), 250
- Angiocardiography, negative (gas) contrast (Durrant), 1
- Annotations, 133, 282, 421, 568, 710, 841
- Announcements, 143, 430, 574, 718, 848
- Antiarrhythmic, cardiovascular and, activity of amotriphene (Brown, et al.), 531
- Aorta and its branches, surgery of, 715 (B. Rev.)
- coarctation of, left-heart volumes in (Bunnell, et al.), 165
- Aortic sinus aneurysm, ruptured. Case report, with review of clinical features (Evans, et al.), 408
- valvular prosthesis, monocusp, in dogs (Akutsu, et al.), 783
- Aortico, traumatic, -right atrial fistula; report of case corrected by operation (Swanepoel, et al.), 120
- Apexcardiogram, normal (Benchimol, et al.), 489
- time relationship of events in cardiac cycle as related to (Benchimol, et al.), 488
- value of, as reference tracing in phonocardiography (Benchimol, et al.), 485
- Arrhythmia, sinus, in rheumatic fever (Joseph and Tenckhoff), 634

- Arterial bleeding, acute circulatory effects of, as determined by indicator-dilution curves in normal human subjects (Ralston, et al.), 770
- bruits in neck, heart murmurs simulated by (Stapleton and El-Hajj), 178
- pressure plethysmograms and impedance plethysmograms, study of (Dontas), 790
- pulse waves, what can be found in (Hyman and Winsor), 424 (Annot.)
- volume and pressure pulse contours in young human subject (Dontas and Cottas), 676
- Arterienverschluss, akute, der Extremitäten (Embolie—Thrombose—Pseudoembolie). Diagnose und Therapie, 716 (B. Rev.)
- Arteries, coronary, relation of myocardial bridges and loops on, to coronary occlusions (Poláček), 44
- Arteriovenous fistulas, systemic, complicated by heart failure, cardiac output in (Spurny and Pierce), 21
- Artery, coronary, disease, masked thyrotoxicosis and, in father and son (Levine), 713 (Annot.)
- insufficiency, role of exercise tests in diagnosis of (Forte, et al.), 756
- single, surgical implications of. Review and two case reports (Longenecker, et al.), 382
- Atelectasia pulmonar, 429 (B. Rev.)
- Atherosclerosis, coronary. Status of MER-29 (triparanol) (Corcoran), 431
- significance of reticuloendothelial cells in (Morris), 569
- Atresia, stenosis and, of pulmonic valve, perinatal changes in pulmonary vascular bed with (Naeye), 586
- Atrial fistula, right, -traumatic aortico; report of case corrected by operation (Swanepoel, et al.), 120
- septal defect, 141 (B. Rev.)
- and mechanism of shunt (Rowe, et al.), 369
- of ostium secundum type, bacterial endocarditis associated with (Griffiths), 543
- "Auricularization" of right ventricular pressure curve (Dalla-Volta, et al.), 25
- Auscultatory findings in primary myocardial disease (Harvey and Perloff), 199
- A-V dissociation, intermittent, unusual type of, in acute rheumatic myocarditis (Goodman and Pick), 259
- Axis, electrical. Measurement and definition in historical perspective (Okajima and Simonson), 421 (Annot.)

B

- Bacterial endocarditis associated with atrial septal defect of ostium secundum type (Griffiths), 543
- (enterococcal) endocarditis, large abscess of heart and spleen complicating (Schoenfeld, et al.), 818

*January, pp. 1-144; February, pp. 145-286; March, pp. 287-430; April, pp. 431-574; May, pp. 575-718; June, pp. 719-864.

- Bakteriellen Endocarditis, subakuten, Klinik der (Band 8); Pathologie und Klinik in Einzeldarstellungen, 429 (B. Rev.)
- Ballistocardiographic system, ultralow-frequency, Nickerson type of, systolic I-J acceleration-force values of normal males from (Hollis), 525
- Bleeding, arterial, acute circulatory effects of, as determined by indicator-dilution curves in normal human subjects (Ralston, et al.), 770
- Block, bundle branch, intermittent, mechanisms influencing conduction in case of (Wallace and Laszlo), 548
 left, complete; physiologic-pathologic correlation; report of case (Lev), 149
 participation of free ventricular walls in mechanism of production of (Anselmi, et al.), 387
 right, complete; pathology of conduction system in acquired heart disease (Lev, et al.), 593
- Blood, clinical estimation of volumes of, in right heart, left heart, and lungs by use of I^{131} albumin (Love, et al.), 397
 flow, coronary, practical limitations of Kety method for determining, by infrared analysis of blood nitrous oxide (Forte, et al.), 81
 in calf of leg after running (Livingstone), 219
 in dog, effect of "local" pH changes on (Zsotér, et al.), 777
 nitrous oxide, practical limitations of Kety method for determining coronary blood flow by infrared analysis of (Forte, et al.), 81
 pressure, elevated, relationship of, to ECG amplitudes and spatial vectors in otherwise "healthy" subjects (Rautaharju and Blackburn), 156
 measurements of urban Zulu adults (Scotch, et al.), 173
 volume, circulating, central, in normal subjects and patients with mitral stenosis (Moir and Gott), 740
- Body fluid volume, control of (Wyllie), 135 (Annot.)
- Book reviews, 139, 286, 429, 573, 715, 847
- Boundary potentials, application of, to several electrocardiographic problems (Bayley), 684
- Bridges and loops, myocardial, on coronary arteries, relation of, to coronary occlusions (Poláček), 44
- Bruit de Roger (Mendlowitz), 283 (Annot.)
- Bruits, arterial, in neck, heart murmurs simulated by (Stapleton and El-Hajj), 178
- Bundle branch block, intermittent, mechanisms influencing conduction in case of (Wallace and Laszlo), 548
 left, complete; physiologic-pathologic correlation; report of case (Lev), 149
 participation of free ventricular walls in mechanism of production of (Anselmi, et al.), 387
 right, complete; pathology of conduction system in acquired heart disease (Lev, et al.), 593
- C
- Ca, effect of administration of, on blood pressure, ECG, and blood chemistry (van Leeuwen, et al.), 267
- Cadavers, vectorcardiographic deflections obtained with various reference systems in (Burch, et al.), 667
- Canine chest, intact, effect of intracavitary carbon dioxide on surface potentials in (Horan, et al.), 504
- Canine—Cont'd
 heart, effects of ischemia and hypoxia on specialized conducting system of (Bagdonas, et al.), 206
- Carbon dioxide, intracardiac, use of, in diagnosis of pericardial disease (Phillips, et al.), 748
 intracavitary, effect of, on surface potentials in intact canine chest (Horan, et al.), 504
- Cardiac action potential, ion movements underlying (Weidmann), 298
 emergencies and related disorders. Their mechanism, recognition and management, 142 (B. Rev.)
 glycosides and kidney (Kupfer and Kosovsky), 284 (Annot.)
 output and diastolic filling period, effect of variations in, upon mitral diastolic gradient (Silverman, et al.), 646
 determination, analysis of time and concentration components and, obtained from precordial isotope-dilution curves (Sharpe and Shapiro), 650
 effects of posture, upright exercise, and myocardial stimulation on, in patients with diseases affecting diastolic filling and effective systolic ejection of left ventricle (Bruce, et al.), 476
- Cardiodynamics, effects of intravenous lanatoside-C upon, in patients with mitral stenosis and regular sinus rhythm (Greene, et al.), 622
- Cardiography, ultrasonic (Grosse-Brockhoff), 842 (Annot.)
- Cardiologic diagnosis and treatment, visual aids in, 573 (B. Rev.)
- Cardiology, diagnostic, indicator-dilution techniques in (Schluger), 845 (Annot.)
- Cardiomyopathy, alcoholic (Evans), 556
- Cardiopulmonary changes in scleroderma. Physiologic study (Conner and Bashour), 494
- Cardiovascular and antiarrhythmic activity of amotriphene (Brown, et al.), 531
 disease in Africa, notes on (White), 133 (Annot.)
 diseases, 573 (Annot.)
 system, electron microscopy of. Electron microscopic study with applications to physiology, 139 (B. Rev.)
 therapy, on neglected role of water and potassium in (Sodi-Pallares and Polansky), 568 (Annot.)
- Catecholamines, urinary excretion of, and their metabolites in pheochromocytoma (Crout, et al.), 375
- Catheterization, left heart, transseptal, experience with (McGaff, et al.), 161
- Cells, reticuloendothelial, significance of, in atherosclerosis (Morris), 569 (Annot.)
- Circulation, dual, concept of (Hyman), 284 (Annot.)
 of man, effects of "dry" heat on. General hemodynamics in patients with chronic pulmonary emphysema (Traks and Sancetta), 184
- Circulatory effects, acute, of arterial bleeding as determined by indicator-dilution curves in normal human subjects (Ralston, et al.), 770
- Citrate infusion, effect of, on electrocardiogram of hypothermic and normothermic dog (Doherty and Hara), 225
- Clinical information, correlation of, in standard 12-lead ECG and in corrected orthogonal 3-lead ECG (Pipberger, et al.), 34
 pathologic conference (Gasul, et al.), 129
 (Lloyd, et al.), 698
 (Somers, et al.), 416
 vectorcardiography and electrocardiography, 847 (B. Rev.)

- Coarctation of aorta, left-heart volumes in (Bunnell, et al.), 165
- Color vision, developments in physiology of, since Einthoven (Bouman), 293
- Complex, QRS, contribution of right ventricular wall to (Gould, et al.), 796
- Conducting system, specialized, of canine heart, effects of ischemia and hypoxia on (Bagdonas, et al.), 206
- Conduction, mechanisms influencing, in case of intermittent bundle branch block (Wallace and Laszlo), 548
- system, pathology of, in acquired heart disease. Complete right bundle branch block (Lev, et al.), 593
- times of dog heart, effects of infusing quinidine sulfate and potassium chloride, separately and combined, on (Bennett, et al.), 500
- Congestive heart failure, kinetocardiographic alterations in patients with, at rest and after exercise. Effect of digitalis (Skinner, et al.), 458
- findings in patients with, and changes after therapeutic digitalization (Skinner), 445
- Contours, pressure pulse, arterial volume and, in young human subject (Dontas and Cottas), 676
- Coomassie blue, toxicity of (Hoffman and Guz), 665
- Cor pulmonale, chronic, electrocardiogram in pulmonary emphysema and (Scott), 843 (Annot.)
- steroid maintenance treatment in (Mickerson), 711 (Annot.)
- Coronary arteries, relation of myocardial bridges and loops on, to coronary occlusions (Poláček), 44
- artery disease, masked thyrotoxicosis and, in father and son (Levine), 713 (Annot.)
- insufficiency, role of exercise tests in diagnosis of (Forte, et al.), 756
- single, surgical implications of. Review and two case reports (Longenecker, et al.), 382
- atherosclerosis. Status of MER-29 (triparanol) (Corcoran), 431
- blood flow, practical limitations of Kety method for determining, by infrared analysis of blood nitrous oxide (Forte, et al.), 81
- occlusion, experimental, salvage of heart muscle by fibrinolytic therapy after (Nydic, et al.), 93
- vessels, ultrastructure of (King), 137 (Annot.)
- Curve, pressure, right ventricular, "auricularization" of (Dalla-Volta, et al.), 25
- Curves, indicator-dilution, acute circulatory effects of arterial bleeding as determined by, in normal human subjects (Ralston, et al.), 770
- isotope-dilution, precordial, analysis of time and concentration components and cardiac output determination obtained from (Sharpe and Shapiro), 650
- Cycle, excitability, experimental study of intramural distribution of, and on form of epicardial T wave in dog heart in situ (van Dam and Durrer), 537
- D**
- Deflections, vectorcardiographic, obtained with various reference systems in cadavers (Burch, et al.), 667
- Dialysis, earlier, and anabolic steroids in acute renal failure (Blagg and Parsons), 287
- Diastolic filling, effects of posture, upright exercise, and myocardial stimulation on cardiac output in patients with diseases affecting, and effective systolic ejection of left ventricle (Bruce, et al.), 476
- period, effect of variations in cardiac output and, upon mitral diastolic gradient (Silverman, et al.), 646
- Digitalis, effect of; kinetocardiographic alterations in patients with congestive heart failure at rest and after exercise (Skinner, et al.), 458
- Digitalization, therapeutic, kinetocardiographic findings in patients with congestive heart failure and changes after (Skinner), 455
- Disease, heart, acquired, pathology of conduction system in. Complete right bundle branch block (Lev, et al.), 593
- Diseases of the newborn, 847 (B. Rev.)
- Displacements, low-frequency, precordial, of thoracic wall. Method of recording and registration (Schneider and Klunhaar), 670
- Dissociation, A-V, intermittent, unusual type of, in acute rheumatic myocarditis (Goodman and Pick), 259
- Distention, vascular, prong-catheter for inducing, in intact animal (Blatteis and Tucker), 236
- Diuretics, mercurial, management of resistant fluid-retention states with intravenous L-arginine monohydrochloride in combination with (Ogden, et al.), 16
- Dog heart, effects of infusing quinidine sulfate and potassium chloride, separately and combined, on conduction times of (Bennett, et al.), 500
- Dogs, normotensive and hypotensive, hemodynamic responses to administration of mephentermine in (Horsley and Eckstein), 88
- Doppler method, ultrasonic, analysis of heart motion with, and its clinical application (Yoshida, et al.), 61
- principle of (Yoshida, et al.), 62
- signal, high-frequency, due to valvular movements in human being and its clinical application (Yoshida, et al.), 66
- kinds of, due to heart movements (Yoshida, et al.), 63
- "Dry" heat, effects of, on circulation of man. General hemodynamics in patients with chronic pulmonary emphysema (Traks and Sances), 184
- Dual circulation, concept of (Hyman), 284 (Annot.)
- E**
- ECG amplitudes and spatial vectors, relationship of elevated blood pressure to, in otherwise "healthy" subjects (Rautaharju and Blackburn), 156
- changes, hypotension accompanying, in two uremic patients with severe hypocalcemia (van Leeuwen, et al.), 264
- standard 12-lead, correlation of clinical information in, and in corrected orthogonal 3-lead ECG (Pipberger, et al.), 34
- Eclampsia, pre-eclampsia, etiology of (Burt), 710 (Annot.)
- Edema: mechanisms and management, 139 (B. Rev.)
- Editorials, 1, 145, 287, 431, 575, 719
- Considerations on evolution of heart diseases in Algeria (Sarrouy, et al.), 145
- Coronary atherosclerosis. Status of MER-29 (triparanol) (Corcoran), 431
- Earlier dialysis and anabolic steroids in acute renal failure (Blagg and Parsons), 287
- Management of nephrotic syndrome (Merrill), 719

Editorials—Cont'd

- Negative (gas) contrast angiocardiology (Durant), 1
- Thrombolytic therapy (Sherry and Fletcher), 575
- Einthoven commemoration (de Waart), 357
 - address (Jonkers), 366
 - development in clinical electrocardiology since (Burch), 324
 - developments in physiology of color vision since (Bouman), 293
 - in memory of (Regnier), 361
 - symposium, 292
 - Willem. Some historical notes on occasion of centenary celebration of his birth (Levine), 422
- Ejection, systolic, effective, of left ventricle, effects of posture, upright exercise, and myocardial stimulation on cardiac output in patients with diseases affecting diastolic filling and (Bruce, et al.), 476
- Electrical activity of heart, influence of high altitudes on (Peñaloza, et al.), 101
 - axis. Measurement and definition in historical perspective (Okajima and Simonson), 421 (Annot.)
- Electrocardiogram and vectorcardiogram, theoretical and clinical studies of, in right ventricular enlargement (Cohen, et al.), 656
 - in normal and some abnormal conditions (Durrer, et al.), 303
 - in pulmonary emphysema and chronic cor pulmonale (Scott), 843 (Annot.)
 - of hypothermic and normothermic dog, effect of citrate infusion on (Doherty and Hara), 225
 - of premature infant (Hubsher), 467
- Electrocardiographic leads, conventional, comparative proximity and remoteness characteristics of (Evans, et al.), 615
 - problems, several, application of boundary potentials to (Bayley), 684
 - techniques. Manual for physicians, nurses, and technicians, 141 (B. Rev.)
- Electrocardiography, clinical, development in, since Einthoven (Burch), 324
 - day's discussion on (Giraud), 354
 - vectorcardiography and, 847 (B. Rev.)
- Electrode system hydrogen-platinum, in detection of intravascular shunts (Hyman, et al.), 53
- Electron microscopy of cardiovascular system. Electron microscopic study with applications to physiology, 135 (B. Rev.)
- Electrophysiology of heart, 139 (B. Rev.)
- Elektrokardiographie, Grundriss und Atlas der, 140 (B. Rev.)
- Embolism, air (James), 423 (Annot.)
 - pulmonary, experimental, vascular lesions in (Tamayo, et al.), 515
- Emergencies, cardiac, and related disorders. Their mechanism, recognition and management, 142 (B. Rev.)
- Emphysema, pulmonary, and chronic cor pulmonale, electrocardiogram in (Scott), 843 (Annot.)
 - chronic, general hemodynamics in patients with. Effects of "dry" heat on circulation of man (Traks and Sancetta), 184
- Endocardial fibroelastosis (Still), 579
 - in one of monozygotic twins (Stadler), 116
 - thickening, adult and adolescent (Still), 584
 - pathogenesis of (Still), 581
- Endocarditis, bacterial, associated with atrial septal defect of ostium secundum type (Griffiths), 543
 - (enterococcal), bacterial, large abscess of heart and spleen complicating (Schoenfeld, et al.) 818

Endocarditis—Cont'd

- Subakuten Bakteriellen, Klinik der (Band 8); Pathologie und Klinik in Einzeldarstellungen, 429 (B. Rev.)
- Enlargement, ventricular, right, theoretical and clinical studies of electrocardiogram and vectorcardiogram in (Cohen, et al.), 656
- Epicardial T wave, form of, in dog heart in situ, experimental study on intramural distribution of excitability cycle and on form of (van Dam and Durrer), 537
- Excitability cycle, experimental study on intramural distribution of, and on form of epicardial T wave in dog heart in situ (van Dam and Durrer), 537
- Excretion, noradrenaline, elevated, essential hypertension with (Goodall and Bogdonoff), 640
 - urinary, of catecholamines and their metabolites in pheochromocytoma (Crout, et al.), 375
- Exercise tests, role of, in diagnosis of coronary artery insufficiency (Forte, et al.), 756
 - upright, posture, and myocardial stimulation, effects of, on cardiac output in patients with diseases affecting diastolic filling and effective systolic ejection of left ventricle (Bruce, et al.), 476
- Exertion, effect of, and of nitrites on precordial movements; angina pectoris (Skinner, et al.), 250

F

- Failure, heart, cardiac output in systemic arteriovenous fistulas complicated by (Spurny and Pierce), 21
 - with special reference to myocardial disease and; nature of rheumatic heart disease, 715 (B. Rev.)
 - renal, acute, earlier dialysis and anabolic steroids in (Blagg and Parsons), 287
- Fallot, tetralogy of, pulmonary second sound in (Bousvaros), 570 (Annot.)
- Fibrinolytic therapy, salvage of heart muscle by, after experimental coronary occlusion (Nydic, et al.), 93
- Fibroelastosis, endocardial (Still), 579
 - etiology of (Still), 580
 - in one of monozygotic twins (Stadler), 116
 - pattern of (Still), 579
- Filling, diastolic, effects of posture, upright exercise, and myocardial stimulation on cardiac output in patients with diseases affecting, and effective systolic ejection of left ventricle (Bruce, et al.), 476
 - period, diastolic, effect of variations in cardiac output and, upon mitral diastolic gradient (Silverman, et al.) 646
- Fistula, right atrial,—traumatic aortico; report of case corrected by operation (Swanepoel, et al.), 120
- Fistulas, arteriovenous, systemic, complicated by heart failure, cardiac output in (Spurny and Pierce), 21
- Fluid, body, volume, control of (Wyllie), 135 (Annot.)
- Fluid-retention states, resistant, management of, with intravenous L-arginine monohydrochloride in combination with mercurial diuretics (Ogden, et al.), 16
- Frank vectorcardiogram, normal, study of (Bristow), 242

G

- Glycosides, cardiac, and kidney (Kupfer and Kosovsky), 284 (Annot.)
- Gradient, mitral diastolic, effect of variations in cardiac output and diastolic filling period upon (Silverman, et al.), 646

H

- Heart and spleen, large abscess of, complicating bacterial (enterococcal) endocarditis (Schoenfeld, et al.), 818
- canine, effects of ischemia and hypoxia on specialized conducting system of (Bagdonas, et al.), 206
- catheterization, left, transeptal, experience with (McGaff, et al.), 161
- disease, acquired, pathology of conduction system in. Complete right bundle branch block (Lev, et al.), 593
- rheumatic, nature of. With special reference to myocardial disease and heart failure, 715 (B. Rev.)
- diseases, considerations on evolution of, in Algeria (Sarrouy, et al.), 145
- dog, effects of infusing quinidine sulfate and potassium chloride, separately and combined, on conduction times of (Bennett, et al.), 500
- in situ, experimental study of intramural distribution of excitability cycle and on form of epicardial T wave in (van Dam and Durrer), 537
- electrophysiology of, 139 (B. Rev.)
- failure, cardiac output in systemic arteriovenous fistulas complicated by (Spurny and Pierce), 21
- congestive, kinetocardiographic alterations in patients with, at rest and after exercise. Effect of digitalis (Skinner, et al.), 458
- findings in patients with, and changes after therapeutic digitalization (Skinner), 445
- human, intact, electrocardiogram in (Durrer, et al.), 306
- in industry, 286 (B. Rev.)
- influence of high altitudes on electrical activity of (Peñaloza, et al.), 101
- motion, analysis of, with ultrasonic Doppler method and its clinical application (Yoshida, et al.), 61
- murmurs simulated by arterial bruits in neck (Stapleton and El-Hajj), 178
- muscle, salvage of, by fibrinolytic therapy after experimental coronary occlusion (Nydick, et al.), 93
- right, left heart, and lungs, clinical estimation of volumes of blood in, by use of I^{131} albumin (Love, et al.), 397
- Heart-vector and leads (Burger, et al.), 317
- Hemodynamic responses to administration of mephentermine in normotensive and hypotensive dogs (Horsley and Eckstein), 88
- systemic and coronary, effects of 1-(2-methoxyphenol) - 4 - (3 - methoxypropyl) - piperazine phosphate (Rowe, et al.), 238
- Hemodynamics, general, in patients with chronic pulmonary emphysema: Effects of "dry" heat on circulation of man (Traks and Sancetta), 184
- Herz und Herzbeutel, Wiederherstellungschirurgie an, 429 (B. Rev.)
- Herzkranken, Untersuchung und Beurteilung des, 430 (B. Rev.)
- Hydrogen-platinum electrode system in detection of intravascular shunts (Hyman, et al.), 53
- Hypertension, essential, with elevated noradrenergic excretion (Goodall and Bogdonoff), 640
- ventricular, right, as cause of precordial pain (Ross), 134 (Annot.)
- Volume III: Renal, electrolyte and autonomic factors, 286 (B. Rev.)
- Hypertensive therapy, recent developments in (Smirk), 272

- Hypertrophy, ventricular, left, U vector loop or arc in normal subjects and in those with (Sano, et al.), 802
- Hypocalcemia, severe, hypotension accompanying ECG changes in two uremic patients with (van Leeuwen, et al.), 264
- Hypotension accompanying ECG changes in two uremic patients with severe hypocalcemia (van Leeuwen, et al.), 264
- Hypotensive, normotensive and, dogs, hemodynamic responses to administration of mephentermine in (Horsley and Eckstein), 88
- regimen, preliminary approach to establishing (Smirk), 274
- Hypothermic and normothermic dog, effect of citrate infusion on electrocardiogram of (Doherty and Hara), 225
- Hypoxia, effects of ischemia and, on specialized conducting system of canine heart (Bagdonas, et al.), 206

I

- I^{131} albumin, clinical estimation of volumes of blood in right heart, left heart, and lungs by use of (Love, et al.), 397
- I-J acceleration-force values, systolic, of normal males from Nickerson type of ultralow-frequency ballistocardiographic system (Hollis), 525
- Impedance plethysmograms, study of arterial pressure plethysmograms and (Dontas), 790
- Incompetence, mitral, silent (Schrire, et al.), 723
- Indicator-dilution curves, acute circulatory effects of arterial bleeding as determined by, in normal human subjects (Ralston, et al.), 770
- techniques in diagnostic cardiology (Schluger), 845 (Annot.)
- Industry, heart in, 286 (B. Rev.)
- Infant, newborn, resuscitation of. Principles and practice, 715 (B. Rev.)

- heart disease, nature of. With special reference to myocardial disease and heart failure, 715 (B. Rev.)
- myocarditis, acute, unusual type of intermittent A-V dissociation in (Goodman and Pick), 259

- Roger, bruit de (Mendlowitz), 283 (Annot.)
 Running, blood flow in calf of leg after (Livingstone), 219
- S
- Science, medical, blight of (Hecht), 282 (Annot.)
 medicine versus (Mendlowitz), 571 (Annot.)
 Scleroderma, cardiopulmonary changes in. Physiologic study (Conner and Bashour), 494
 Second sound, pulmonary, in tetralogy of Fallot (Bousvaros), 570 (Annot.)
 Septal defect, atrial, 141 (B. Rev.)
 and mechanism of shunt (Rowe, et al.), 369
 of ostium secundum type, bacterial endocarditis associated with (Griffiths), 543
 ventricular, biventricular origin of pulmonary trunk with subaortic stenosis above (Neufeld, et al.), 189
 Shunt, atrial septal defect and mechanism of (Rowe, et al.), 369
 Shunts, intravascular, hydrogen-platinum electrode system in detection of (Hyman, et al.), 53
 Sinus aneurysm, aortic, ruptured. Case report, with review of clinical features (Evans, et al.), 408
 arrhythmia in rheumatic fever (Joseph and Tenckhoff), 634
 rhythm, regular, effects of intravenous lanatoside-C upon cardiodynamics in patients with mitral stenosis and (Greene, et al.), 622
 Spatial vectors, relationship of elevated blood pressure to ECG amplitudes and, in otherwise "healthy" subjects (Rautaharju and Blackburn), 156
 Spleen, large abscess of heart and, complicating bacterial (enterococcal) endocarditis (Schoenfeld, et al.), 818
 Stenosis and atresia of pulmonic valve, perinatal changes in pulmonary vascular bed with (Naeye), 586
 mitral, and regular sinus rhythm, effects of intravenous lanatoside-C upon cardiodynamics in patients with (Greene, et al.), 622
 central circulating blood volume in normal subjects and patients with (Moir and Gott), 740
 subaortic, above ventricular septal defect, biventricular origin of pulmonary trunk with (Neufeld, et al.), 189
 Steroid maintenance treatment in cor pulmonale (Mickerson), 711 (Annot.)
 Steroids, anabolic, earlier dialysis and, in acute renal failure (Blagg and Parsons), 287
 Stimulation, myocardial, effects of posture, upright exercise, and, on cardiac output in patients with diseases affecting diastolic filling and effective systolic ejection of left ventricle (Bruce, et al.), 476
 Surgery of aorta and its branches, 715 (B. Rev.)
 open-heart, preservation of myocardial function during (Stirling), 841 (Annot.)
 Surgical implications of single coronary artery. Review and two case reports (Longenecker, et al.), 382
 Syndrome, nephrotic, management of (Merrill), 719
 System, conduction, pathology of, in acquired heart disease. Complete right bundle branch block (Lev, et al.), 593
 Systolic ejection, effective, of left ventricle, effects of posture, upright exercise, and myocardial stimulation on cardiac output in patients with diseases affecting diastolic filling and (Bruce, et al.), 476
- Systolic—Cont'd
 I-J acceleration-force values of normal males from Nickerson type of ultralow-frequency ballistocardiographic system (Hollis), 525
- T
- T wave, epicardial, form of, in dog heart in situ, experimental study on intramural distribution of excitability cycle and on (van Dam and Durrer), 537
 Tachycardia, ventricular, paroxysmal, associated with myxedema. Case report (Hansen), 692
 Tachycardias, bidirectional, genesis of (Castellanos), 733
 Tetralogy of Fallot, pulmonary second sound in (Bousvaros), 570 (Annot.)
 Therapy, hypertensive, recent developments in (Smirk), 272
 Thoracic wall, precordial low-frequency displacements of. Method of recording and registration (Schneider and Klunhaar), 670
 Thrombolytic therapy (Sherry and Fletcher), 575
 Thyrotoxicosis, masked, and coronary artery disease in father and son (Levine), 713 (Annot.)
 Tolazoline hydrochloride (Priscoline): effective pulmonary vasodilator (Grover, et al.), 5
 Toxicity of Coomassie blue (Hoffman and Guz), 665
 Transposition of great vessels, functionally corrected, without significant associated defects (Goodman and Kuzman), 811
 Traumatic aortico-right atrial fistula; report of case corrected by operation (Swanepoel, et al.), 120
 Trunk, pulmonary, with subaortic stenosis above ventricular septal defect, biventricular origin of (Neufeld, et al.), 189
 Twins, monozygotic, endocardial fibroelastosis in one of (Stadler), 116
- U
- U vector loop or arc in normal subjects and in those with left ventricular hypertrophy (Sano, et al.), 802
 Ultrasonic cardiography (Grosse-Brockhoff), 842 (Annot.)
 Doppler method, analysis of heart motion with, and its clinical application (Yoshida, et al.), 61
 Ultrasound, transmittance, direction, and reflection in body of (Yoshida, et al.), 61
 Ultrastructure of coronary vessels (King), 137 (Annot.)
 Untersuchung und Beurteilung des Herzkranken, 430 (B. Rev.)
 Uremic patients, two, with severe hypocalcemia, hypotension accompanying ECG changes in (van Leeuwen, et al.), 264
- V
- Valve, pulmonic, perinatal changes in pulmonary vascular bed with stenosis and atresia of (Naeye), 586
 Valvotomy, mitral, in children (Borman, et al.), 763
 Valvular, aortic, prosthesis, monocusp, in dogs (Akutsu, et al.), 783
 bed, pulmonary, with stenosis and atresia of pulmonic valve, perinatal changes in (Naeye), 586
 distention, prong-catheter for inducing, in intact animal (Blatteis and Tucker), 236
 lesions in experimental pulmonary embolism (Tamayo, et al.), 515
